Motivation

- work less do more (JQuery)
- less mistakes
- better orientation
- do it once, and leave computer to repeat it

fast IDEs introduce

- Atom
- Code (aka VSCode)

Installation

packages browser inside IDE

theme

background
type color and style

icons

just for fun
and it looks pretty

introduction
oo

packages
ooo

syntax
●ooo

write faster
oooo

after coding
oo

keyshortcuts
oo

end
ooo

Color

Bracket Pair Colorizer 2
Better Comments
Color Highlight

Indent

Readable Indent
indent-rainbow

minimap

Code $\rightarrow$ just enable it

Atom $\rightarrow$ need to be installed

git history

GitLens Git supercharged

intelliSense

tag auto complete

code snippets

for every language one package
depends on extension of file (.js)

beautify
